Welcome to Kuş Cenneti National Park! The park is near Bandırma, next to Lake Manyas. It is home to more than two hundred kinds of birds. Some birds live here all year. Others come in spring because they must find a safe place for their babies. From the wooden tower, you can watch pelicans, herons and cormorants with binoculars. Pelicans are the biggest birds in the park. They have got huge wings and long beaks. Near the water, you can also see frogs, turtles and lots of insects. Please be quiet! Birds are scared of loud noises. You mustn't feed the birds or leave rubbish in the park.
