5. attack	e) tırmanmak

D Wolves of the Kaçkar Mountains

Read the text and answer the questions. *(Metni okuyun ve soruları cevaplayın.)*

> Grey wolves live in the forests and mountains of Türkiye, for example in the Kaçkar Mountains. They are wild mammals. A wolf has got thick grey fur, strong legs and a long tail. Wolves live in groups, and a group of wolves is called a pack. They hunt together because they must catch big animals like deer. A wolf can run for a long time, and it can hear sounds from very far away. But wolves can’t climb trees! At night, they howl to talk to each other. In winter, food is hard to find, so wolves must travel long distances to survive. Some people think wolves are scary, but they are very important for nature.

1. Where do grey wolves live in Türkiye?

.....

2. What is a group of wolves called?

.....

3. Why do wolves hunt together?

.....

4. What must wolves do in winter? Why?

.....

.....
