a) Where b) When c) What d) Who

D The turtles of İztuzu Beach

Read the text and answer the questions. *(Metni okuyun ve soruları cevaplayın.)*

> İztuzu Beach in Dalyan, Muğla, is a very special habitat. It is a long, sandy beach between the sea and a river. Every summer, loggerhead sea turtles (caretta carettas) come to this beach. They lay their eggs in the warm sand at night. After about two months, the baby turtles come out of the sand and walk to the sea. This is a dangerous journey for them! Because of this, there are rules on the beach. Visitors must leave the beach before eight o’clock in the evening. They mustn’t put umbrellas near the turtle nests. Every summer, volunteers from all over the world help the turtles. Where can you find these turtles in winter? In the warm waters of the Mediterranean Sea.

1. Where is İztuzu Beach?

.....

2. When do the turtles lay their eggs?

.....

3. What must visitors do before eight o’clock in the evening?

.....

4. Where can you find these turtles in winter?

.....

E The biggest habitat

Write the superlative form of the adjective in brackets. *(Parantezdeki sıfatın en üstünlük hâlini (the …-est / the most) yazın.)*
