4. We saw _____ in the sky, and then we heard thunder.
5. A _____ is a snowstorm with strong winds.
6. It was _____ in Erzurum: minus 25 degrees!

D A trip to the planetarium

Read the text and answer the questions. *(Metni oku, soruları kısaca cevapla.)*

> Last week, our class visited the planetarium at the science centre in Konya. We sat under a huge round screen and “travelled” through the solar system. First, we flew past Mercury and Venus, the planets closest to the Sun. Then we saw Earth from space. It looked blue and green because of its oceans and land. The guide explained that the atmosphere protects Earth like a blanket. Next, we visited Jupiter, the largest planet, with its giant red storm. My friend Ayaz loved Saturn’s bright rings. Before we left, the guide said, “Tonight Mars is going to be visible in the sky. Look for a small red light!”

1. Where is the planetarium?

2. Why does Earth look blue and green from space?

3. What does the atmosphere do?

4. What is going to be visible in the sky tonight?

E will or be going to? ◫◫

Choose the correct answer. *(Doğru cevabı seç.)*

1. Look at those dark clouds! It ____ rain.

   a) is going to b) will to c) rains d) rained

2. I think people ____ live on Mars one day.

   a) are going b) going to c) will d) won’t to
