Choose the correct answer. *(Doğru seçeneği işaretleyin.)*

1. Two years ago, Lake Sapanca had a big problem. Visitors left plastic bottles and bags on the shore, and a few factories near the lake made the water dirty. Some fish died, and many birds left the lake. Then the students of a secondary school in Sakarya started the “Blue Lake” project. They cleaned the shore every month and put recycling bins next to the picnic tables. They also wrote a letter to the town mayor. After that, the town council made new rules: factories must clean their water, and visitors mustn’t use plastic plates. Today the water is cleaner, and the birds are back!

What was the problem at the lake?

a) There weren’t any visitors.

b) Rubbish and factories made the water dirty.

c) The lake was too cold for fish.

d) There were too many birds.

2. What did the students put next to the picnic tables?

a) recycling bins

b) new trees

c) plastic plates

d) boats

3. Who did the students write a letter to?

a) the factory workers
