..... OKULU

7. Sınıf İngilizce 2. Dönem 2. Ortak Yazılı – Senaryo 4

2026-2027 · Ünite 6–10 (ağırlık Ünite 9: Environment, Ünite 10: Planets) · Senaryo 4: örnek senaryo (MEB 2. dönem tablosu yayımlanınca güncellenecek)

Adı Soyadı		**Sınıfı / No**	
Süre	40 dakika	**Puan**	..... / 100

A Writing: An eco-party invitation

1 × 12 = 12 puan

Write an invitation card. *(Bir davetiye yazın.)*

1. Write an invitation card for a World Environment Day picnic and clean-up party in your neighbourhood park. Include the date, time, place and what to bring.

B Reading: A class survey

4 × 4 = 16 puan

Read the survey and answer the questions. *(Anketi okuyun ve soruları kısaca cevaplayın.)*

We asked the 30 students in our class, 7-E, about the year 2040. Here are the results:

Prediction	Yes	No	Maybe
People will live on the Moon.	6	15	9
Cars will drive without drivers.	24	2	4
Students will learn at home with robots.	10	12	8
There won’t be any paper books.	3	22	5

Most students think cars without drivers will be normal, but nearly everyone believes paper books won’t disappear.

1. How many students think people will live on the Moon?

2. Which prediction got the most “Yes” answers?

3. How many students are not sure about learning with robots?

4. What do most students believe about paper books?

C Reading: Sea snot

4 × 4 = 16 puan

Read the text and answer the questions. *(Metni okuyun ve soruları kısaca cevaplayın.)*

> In 2021, a thick grey layer covered the surface of the Sea of Marmara. People called it “sea snot”. Scientists explained that it happened for two main reasons: pollution from cities and factories, and the rising temperature of the sea because of global warming.
> The sea snot was a big problem. Fishermen couldn’t catch fish, because the layer blocked their nets. Many sea animals died, because there was not enough oxygen in the water.
> After that, people took action. Hundreds of workers cleaned the sea, and the government made new rules for factories. Experts say we must clean waste water before it goes into the sea.

1. What covered the Sea of Marmara in 2021?

2. What were the two main reasons for it?

3. Why couldn’t fishermen catch fish?

4. Why did many sea animals die?

D Writing: A poster message

1 × 12 = 12 puan

Write a short poster message. *(Kısa bir afiş metni yazın.)*

1. Write a short poster message (3–4 sentences) for your school entrance about protecting the environment. Use must, mustn’t and should.

E Writing: How paper is recycled

4 × 3 = 12 puan

Put the words in the correct order to describe the process. *(Kelimeleri doğru sıraya koyarak süreci anlatan cümleler kurun.)*

1. *bin. / collect / old / First, / in / blue / paper / a*
2. *to / take / centre. / recycling / Then, / bin / the / the*
3. *the / workers / the / paper / After / that, / with / water. / mix*
4. *Finally, / from / they / make / paper / the / new / mixture.*

F Reading: Our star

4 × 4 = 16 puan

Read the text and answer the questions. *(Metni okuyun ve soruları kısaca cevaplayın.)*

> The Sun is a star. It is the centre of our solar system, and all eight planets orbit it. The Sun is very big: about 1.3 million Earths can fit inside it! It is also very hot. The temperature on its surface is about 5,500 °C.
> Light from the Sun takes about eight minutes to reach Earth. Life on Earth needs the Sun, because plants need sunlight to grow.
> But be careful: you should never look directly at the Sun, even with sunglasses, because it can damage your eyes.

1. How many planets orbit the Sun?

2. What is the temperature on the Sun’s surface?

3. How long does sunlight take to reach Earth?

4. Why shouldn’t you look directly at the Sun?

G Writing: Our planet

1 × 16 = 16 puan

Write a short paragraph. *(Kısa bir paragraf yazın.)*

1. Write a short description of Earth. Write about its position, its moon, water and atmosphere, and compare it with one other planet. (5–6 sentences)
