e) I may not. I like quiet places.

C The 7-B time capsule

Read the letter and answer the questions. *(Mektubu okuyun ve soruları cevaplayın.)*

THE 7-B TIME CAPSULE – please open in 2050!
Today is 5 March 2027. Our class is putting this letter in a time capsule, and we will open it in 2050. Here are our predictions.
Duru thinks people will travel in flying taxis, and she is sure there will be a hotel on the Moon. Arda doesn't agree. He says flying taxis will probably be too expensive, but he believes trains will be much faster than today.
Our teacher, Ms. Aksoy, predicts that students won't carry heavy school bags, because all books will be digital. Selim hopes robots will do all the housework, but he thinks they won't cook as well as his grandmother!
We all hope the world will be a more peaceful place and people will protect nature better. Maybe we will be doctors, engineers, farmers or artists. We don't know yet. But we promise one thing: we will meet again on 5 March 2050 and open this capsule together!

1. When will the class open the time capsule?

.....

2. What does Duru predict?

.....

.....

3. Why doesn't Arda agree with Duru?

.....

4. Why won't students carry heavy school bags, according to Ms. Aksoy?

.....

5. What do all the students hope?

.....

.....
