7. Sınıf İngilizce Planets Çalışma Kâğıdı – Comparing the Planets

WORKSHEET

2026-2027 · Ünite 10: Planets · Alt tema: Comparing the Planets

Name: _____ Class: _____ Date: _____

A Planet facts

Match the planets with the facts. *(Gezegenleri bilgilerle eşleştirin.)*

1. Mercury	a) the biggest planet
2. Venus	b) the hottest planet
3. Earth	c) the closest planet to the Sun
4. Jupiter	d) famous for its big, bright rings
5. Saturn	e) the only planet with life that we know
6. Neptune	f) the farthest planet from the Sun

B Compare the planets

Write the comparative or superlative form. *(Sıfatların karşılaştırma (-er / more) ya da üstünlük (the ...-est / the most) hâlini yazın.)*

1. Jupiter is _____ (large) than Saturn.
2. Uranus is _____ (cold) than Saturn.
3. Mercury is _____ (small) planet in our solar system.
4. Venus is _____ (hot) than Mercury, but it is farther from the Sun.
5. The gravity on the Moon is _____ (weak) than the gravity on Earth.
6. Of all eight planets, Neptune is _____ (far) from the Sun.
7. A day on Venus is _____ (long) than a year on Venus!

C Planet fact table

Read the table and the notes. Answer the questions. *(Tabloyu ve notları okuyun, soruları cevaplayın.)*

PLANET FACT TABLE

Planet	Position from the Sun	Size (diameter)	Number of moons	Type
Venus	2nd	about 12,100 km	0	rocky
Earth	3rd	about 12,700 km	1	rocky
Mars	4th	about 6,800 km	2	rocky
Jupiter	5th	about 140,000 km	more than 90	gas giant

Notes: Venus is not the closest planet to the Sun, but it is the hottest, because it has a very thick atmosphere that keeps the heat in. Mars is about half the size of Earth. Jupiter has a giant storm called the Great Red Spot. This storm is bigger than our whole planet!

1. Which planet is the biggest in the table?

.....

2. Is Mars bigger or smaller than Earth?

.....

3. Which planet in the table has no moons?

.....

4. Why is Venus hotter than Mercury?

.....

5. What is the Great Red Spot?

.....

D Language in use

Choose the correct option. *(Doğru seçeneği işaretleyin.)*

1. Saturn is ____ than Earth.

   a) big b) bigger c) biggest d) more big

2. Venus is ____ planet in our solar system.

   a) hot b) hotter c) the hottest d) the most hot

3. Is there ____ water on the surface of Venus? — No, there isn't.

   a) a b) an c) many d) any

4. The Moon ____ around the Earth.

a) orbit b) orbits c) orbiting d) is orbit

E Two planets

Write your answers. *(Cevaplarınızı yazın. Örnek cevaplar cevap anahtarındadır.)*

1. Choose two planets and compare them. Write five sentences about their size, temperature, distance from the Sun and moons.
