7. Sınıf İngilizce Planets Çalışma Kâğıdı – Space Exploration

WORKSHEET

2026-2027 · Ünite 10: Planets · Alt tema: Space Exploration

Name: _____ Class: _____ Date: _____

A Milestones in space

Write the verbs in the past simple. *(Parantez içindeki fiilleri geçmiş zamanda yazın.)*

1. Clyde Tombaugh _____ (discover) Pluto in 1930.
2. The Soviet Union _____ (send) the first satellite, Sputnik 1, into space in 1957.
3. Yuri Gagarin _____ (become) the first person in space in 1961.
4. Neil Armstrong and Buzz Aldrin _____ (walk) on the Moon in 1969.
5. In 2003, two robot explorers _____ (begin) their journey to Mars.
6. _____ scientists _____ (find) evidence of water on Mars? — Yes, they did.

B Space questions

Match the questions with the answers. *(Soruları cevaplarıyla eşleştirin.)*

1. Is there any water on Mars?	a) In 1930.
2. When did scientists discover Pluto?	b) There is some ice, but there are no rivers or seas.
3. Is there life on other planets?	c) We don’t know yet. Scientists are still looking.
4. What does a telescope do?	d) It helps us observe stars and planets.
5. Where is the International Space Station?	e) It orbits the Earth about 400 km above us.

C Türkiye in space

Read the text. Write T (true) or F (false). *(Metni okuyun. Cümleler doğru mu, yanlış mı?)*

TÜRKİYE IN SPACE

On 18 January 2024, a rocket took off from Florida in the USA. On board, there was a very special passenger: Alper Gezeravcı, a pilot from the Turkish Air Force. He became the first Turkish astronaut in history.

Gezeravcı travelled to the International Space Station, a large laboratory that orbits the Earth. He stayed there for more than two weeks with astronauts from other countries. During his mission, he did thirteen science experiments prepared by Turkish scientists. Millions of people in Türkiye followed his journey on TV and on the internet.

Türkiye also has its own communication satellites, called Türksat. They orbit the Earth and send TV and internet signals to millions of homes.

Today many young people in Türkiye dream of becoming astronauts or space engineers. Maybe one day a Turkish astronaut will walk on the Moon. Will it be you?

1. Alper Gezeravcı's rocket took off from Türkiye. ( )
2. He was the first Turkish astronaut. ( )
3. The International Space Station orbits the Moon. ( )
4. He did experiments prepared by Turkish scientists. ( )
5. Türksat satellites send TV and internet signals. ( )

D Questions about space

Choose the correct option. *(Doğru seçeneği işaretleyin.)*

1. When ____ the first person walk on the Moon?

   a) did b) was c) does d) were

2. Is there ____ life on Venus?

   a) a b) an c) any d) many

3. Astronauts travel to space in a ____.

   a) telescope b) space shuttle c) galaxy d) meteor

4. Every August, you can see a ____ shower in the night sky.

   a) planet b) moon c) satellite d) meteor

E A fact file about the Moon

Write your answers. *(Cevaplarınızı yazın. Örnek cevaplar cevap anahtarındadır.)*

1. Write a fact file about the Moon (5 sentences). Use the information: about 384,000 km from Earth / orbits the Earth in about 27 days / no air, no liquid water / gravity is weaker than on Earth / first humans there in 1969.
