A Reading: Who does the chores?

4 × 5 = 20 puan

Read the text and answer the questions. *(Metni okuyun ve soruları kısa cevaplarla yanıtlayın.)*

Our school newspaper asked students: 'Who does the chores in your house?'

Hande (8/A): In my house, we have a chore chart on the fridge. Every week, we change our jobs. This week, I'm in charge of the laundry, and my brother is responsible for cooking.

Mustafa (8/C): I live with my dad. We share all the chores. He cooks and I wash the dishes. On Sundays, we both clean up the flat.

Zümra (8/B): Honestly, my mum does most of the housework, and that isn't fair. So last month I made a promise: I'll make my bed and set the table every day. I haven't broken it yet!

1. Where is the chore chart in Hande's house?

.....

.....

2. What is Hande's brother responsible for this week?

.....

.....

3. What do Mustafa and his dad do on Sundays?

.....

.....

4. What promise did Zümra make?

.....

.....

B Reading: A weather station

4 × 5 = 20 puan

Read the text and answer the questions. *(Metni okuyun ve soruları kısa cevaplarla yanıtlayın.)*

> This term, the science club at our school is working on an exciting project. The students are building a small weather station on the school roof. Right now, Yasemin and Ozan are testing the temperature sensor, and Mr Gündoğdu is helping them with the computer program.
> The idea came from a trip last year. The club visited Kandilli Observatory in İstanbul, where scientists showed them how they measure earthquakes and the weather. After the trip, the students decided to collect their own data. They searched the Internet for cheap equipment and wrote a letter to the town council. The council gave them money for the project. Next month, they are going to share the results on the school website.

1. What are the students building?

.....

.....

2. What are Yasemin and Ozan doing right now?

.....

.....

3. Where did the club go last year?

.....

.....

4. Who gave them money for the project?

.....

.....

C Reading: The first vaccine

4 × 5 = 20 puan

Read the text and answer the questions. *(Metni okuyun ve soruları kısa cevaplarla yanıtlayın.)*

Vaccines are one of the greatest scientific achievements in history. In 1796, an English doctor named Edward Jenner noticed that milkmaids who caught cowpox, a mild disease, didn’t get smallpox, a very dangerous one. So he did an experiment: he took some material from a cowpox sore and put it into a boy’s arm. Later, the boy didn’t get sick from smallpox. This was the first vaccine.

After Jenner, scientists developed vaccines for many other diseases, such as polio and measles. Thanks to vaccination, smallpox completely disappeared from the world in 1980. Today, researchers are still working in labs to find vaccines for other diseases. Vaccines have saved millions of lives.

1. What is the main idea of the text?

.....

.....

2. What did Jenner notice about the milkmaids?

.....

.....

3. Write two diseases that we have vaccines for today.

.....

.....

4. What happened in 1980?

.....

.....

D Reading: Flood news

4 × 5 = 20 puan

Read the text and answer the questions. *(Metni okuyun ve soruları kısa cevaplarla yanıtlayın.)*

FLOODS IN THE WESTERN BLACK SEA

Heavy rain caused serious floods in several towns in the western Black Sea region yesterday. In some places, it rained more than 100 millimetres in only six hours. Rivers overflowed, and the water damaged roads, bridges and many homes. Rescue teams helped about 300 people leave their houses, and nobody was hurt.

Experts say floods will happen more often in the future because of global warming and the loss of forests. ‘When we cut down trees, the land can’t hold the water,’ explains Dr Serap Ünal, a climate scientist. She believes towns should plant more trees and stop building houses near rivers.

1. What caused the floods?

.....

.....

2. How many people did the rescue teams help?

.....

.....

3. Why will floods happen more often in the future?

.....

.....

4. What does Dr Ünal suggest?

.....

.....

E Writing: Drought

1 × 20 = 20 puan

Write a short paragraph (50–70 words). *(Kısa bir paragraf yazın (50–70 kelime).)*

1. Write about drought. What are its reasons and results? What will happen in the future? What should we do?
