A Reading: The ghost city of Ani

4 × 3 = 12 puan

Read the text and answer the questions. *(Metni okuyun ve soruları kısa cevaplarla yanıtlayın.)*

Have you ever visited a ghost city? Ani, near Kars, is an ancient city on the border between Türkiye and Armenia. A thousand years ago, it was a rich city on the Silk Road, and people called it ‘the city of 1001 churches’. Today, nobody lives there, but visitors can walk among the ruins of churches, mosques and city walls.

Ani is in the countryside, far from busy cities, so it is very quiet and peaceful. The best time to visit is from May to October, because winters in Kars are extremely cold and snowy. After visiting Ani, many tourists try Kars’s famous gravyer cheese and take a trip on the Eastern Express train.

1. Where is Ani?

.....

.....

2. What did people call Ani a thousand years ago?

.....

.....

3. When is the best time to visit Ani? Why?

.....

.....

4. What do many tourists do after visiting Ani?

.....

.....

B Reading: Busy evening

4 × 3 = 12 puan

Read the text and answer the questions. *(Metni okuyun ve soruları kısa cevaplarla yanıtlayın.)*

Mum: Kerem, it’s time to do the laundry. Can you put your clothes in the basket?
Kerem: Mum, I’m busy. I have to finish my science project tonight.
Mum: OK, but don’t forget, you promised to clean up your room this week.
Kerem: I know. I’ll do it tomorrow after school. Is Duru responsible for the dishes today?
Mum: Yes, she is. You’re in charge of taking out the trash tonight.
Kerem: Fine. I don’t like it when the trash smells!
Mum: Good. And please return your library books on time. They’re due on Friday.

1. Why is Kerem busy tonight?

.....

.....

2. When will Kerem clean up his room?

.....

.....

3. What is Kerem in charge of tonight?

.....

.....

4. When are the library books due?

.....

.....

C Reading: A robot on Mars

4 × 3 = 12 puan

Read the text and answer the questions. *(Metni okuyun ve soruları kısa cevaplarla yanıtlayın.)*

In February 2021, a robot called Perseverance landed on Mars after a journey of almost seven months. Scientists sent it to search for signs of ancient life. A small helicopter named Ingenuity travelled with it, and in April 2021, it became the first machine to fly on another planet.
These days, Perseverance is still exploring the area around Jezero Crater, which was a lake billions of years ago. It is collecting rock samples and taking photos. Scientists on Earth are studying the results carefully. In the future, they hope to bring the samples back to Earth. Our science teacher says some of us might work on missions like this one day!

1. When did Perseverance land on Mars?

2. Why did scientists send it to Mars?

3. What did Ingenuity become in April 2021?

4. What is Perseverance doing these days?

D Reading: Ibn Sina

4 × 3 = 12 puan

Read the text and answer the questions. *(Metni okuyun ve soruları kısa cevaplarla yanıtlayın.)*

> Ibn Sina, known in Europe as Avicenna, was one of the greatest scientists of the Middle Ages. He was born near Bukhara in 980. He was a genius: he started studying medicine when he was sixteen, and he was treating patients at eighteen.
> His most famous work, 'The Canon of Medicine', described hundreds of diseases and their cures. It also said that doctors should test new medicines carefully. Universities in Europe used his book for about 600 years. Today, many hospitals and schools are named after him.

1. What is the main idea of the text?

2. How old was Ibn Sina when he started studying medicine?

3. What did 'The Canon of Medicine' describe?

4. How long did universities in Europe use his book?

E Writing: A scientist I admire

1 × 14 = 14 puan

Write a short paragraph (50–70 words). *(Kısa bir paragraf yazın (50–70 kelime).)*

1. Write about a scientist you admire. Where and when was he/she born? What did he/she discover or invent? Why is it important today?

F Reading: Avalanche safety

4 × 3 = 12 puan

Read the text and answer the questions. *(Metni okuyun ve soruları kısa cevaplarla yanıtlayın.)*

> An avalanche is a large amount of snow that suddenly slides down a mountain. It can move at more than 100 kilometres per hour and bury everything in its path. Avalanches usually happen after heavy snowfall, when the weather gets warmer quickly, or when skiers leave the safe paths.
> In Türkiye, avalanches sometimes happen in eastern provinces like Hakkari, Erzurum and Bitlis. Rescue teams use trained dogs to find people under the snow, because dogs can smell a person under several metres of snow. Experts advise skiers to check the avalanche warnings, carry a special transmitter and never ski alone.

1. How fast can an avalanche move?

2. When do avalanches usually happen?

3. Why do rescue teams use trained dogs?

4. What do experts advise skiers to do?

G Reading: The world in 2080

4 × 3 = 12 puan

Read the conversation and complete the sentences. *(Konuşmayı okuyun ve cümleleri tamamlayın.)*

> Teacher: What do you think the world will be like in 2080, Defne?
> Defne: I think it will be hotter. The ice at the poles will melt, so sea levels will rise.
> Teacher: What about you, Alp?
> Alp: I'm worried about water. If people keep wasting water, there won't be enough for everyone. There will be more droughts.
> Teacher: And what should we do, Selin?
> Selin: We should use renewable energy like solar and wind power. And I think cities will have more trees and fewer cars.

1. Defne thinks the world will be _____ in 2080.
2. According to Defne, sea levels will _____ .
3. Alp predicts there will be more _____ .
4. Selin thinks cities will have fewer _____ .

H Writing: Floods

1 × 14 = 14 puan

Write a short paragraph (50–70 words). *(Kısa bir paragraf yazın (50–70 kelime).)*

1. Write about floods. What are their reasons and results? What will happen in the future? What should we do?
