Read the text. Are the sentences true or false? *(Metni oku. Cümleler doğru mu, yanlış mı?)*

I’m Mert from Eskişehir, and this is my prediction for my town in 2060. I think life will be very different. People probably won’t drive cars on the roads; they will use small flying cars, and the sky will be busier than the streets. Robots will certainly do most of the boring jobs, like cleaning and cooking. Doctors will use smart devices to check our health at home, so life expectancy will be longer.

Maybe students won’t go to school every day. They will meet their teachers as holograms in their living rooms. I hope that’s not true, because I love seeing my friends! I don’t think people will teleport, because it is impossible. But I’m sure one thing won’t disappear: the Porsuk River and its boats. Some dreams come true, and some don’t. Let’s wait and see!
