Our school in Rize has an eco club called the Green Team, and I joined it this year. Every Friday, we collect plastic bottles, paper and glass from the classrooms and put them in different recycling bins. Last month, we recycled almost two hundred kilos of paper! We also check the classrooms at the end of the day and turn off the lights and the computers to save energy.
Our teacher, Mr Yavuz, says that waste is one of the biggest problems in the world. If we reduce our waste, we will protect natural resources like trees and water. Next spring, we are planning to put solar panels on the roof of the gym. We also want to start a “No Plastic Bag Week”. People shouldn’t think that small actions are useless. They make a big difference.
