D Reading

4 × 4 = 16 puan

Read the text and answer the questions. *(Metni okuyun ve soruları cevaplayın.)*

Hi, I’m Barış and I love space. Every night I look at the sky with my small telescope. Last week I saw Saturn and its beautiful rings! Saturn is the second biggest planet in our Solar System, but it is very light. My science teacher says it could float on water if there was a big enough ocean.
I dream of becoming an astronomer one day. However, I worry about our own planet too. Air pollution and bright city lights make it difficult to see the stars. That’s why my family and I use less electricity, and we turn off the garden lights at night.

1. What did Barış see last week?

   a) The Moon b) Saturn c) Mars d) A shooting star

2. Which sentence is TRUE about Saturn?

   a) It is the biggest planet. b) It is very heavy.

   c) It has rings. d) It is close to the Sun.

3. What does Barış want to be?

   a) A science teacher b) A pilot c) An engineer d) An astronomer

4. Why does his family turn off the garden lights at night?

   a) Because they are broken b) To use less electricity and see the stars better

   c) Because of the rain d) Because the neighbours want it
