B Reading

4 × 5 = 20 puan

Read the text and answer the questions. *(Metni oku ve soruları cevapla.)*

> Polar bears live in the Arctic. It is very cold there and there is snow and ice for most of the year. Polar bears have thick white fur. It keeps them warm and helps them hide in the snow. They are very good swimmers and they can swim for hours. They mostly eat seals. Today, the ice in the Arctic is melting because the Earth is getting warmer. This is a big problem for polar bears.

1. Where do polar bears live?

a) In the jungle. b) In the desert. c) In the Arctic. d) In the mountains.

2. Why do polar bears have thick fur?

a) To catch birds. b) To look beautiful. c) To swim fast. d) To keep warm.

3. What do polar bears mostly eat?

a) Seals. b) Fruit and plants. c) Honey. d) Bamboo.

4. What is the problem for polar bears today?

a) There are too many seals. b) The ice is melting.

c) It is too cold. d) They can’t swim.
