B Reading

4 × 5 = 20 puan

Read the text and answer the questions. *(Metni oku ve soruları cevapla.)*

> Space tourism is a new idea. In the past, only astronauts went to space. Today, some companies are building spaceships for ordinary people. A ticket is very expensive now, but scientists think prices will be lower in the future. Maybe in 2060, families will spend their holidays in a space hotel. They will see the Earth from space and float in zero gravity. However, some people think space tourism will be bad for the environment because rockets use a lot of fuel.

1. Who went to space in the past?

a) Families. b) Tourists. c) Children. d) Only astronauts.

2. What do scientists think about ticket prices?

a) They will be lower.

b) Tickets will be free.

c) They will be higher.

d) They will stay the same.

3. What will families do in a space hotel?

a) Plant trees.

b) Float in zero gravity.

c) Build rockets.

d) Swim in the sea.

4. Why do some people think space tourism is bad?

a) Rockets use a lot of fuel.

b) It is boring.

c) The hotels are small.

d) It is too slow.
