> Our school has a garden club, and I joined it this year. There are fifteen students in the club. We meet every Friday afternoon after lessons. Our science teacher, Mr. Yıldız, helps us. In October, we cleaned the garden and planted onions and garlic. In spring, we are going to plant tomatoes, beans and sunflowers. We water the plants twice a week and we use rainwater from a big tank. Last month, we made compost from fruit peels and old leaves. It is natural food for the soil. I like the club because I learn new things and spend time outside. Working in the garden is also relaxing after a long school day. In June, we are going to sell our vegetables and give the money to the school library.
