7. Sınıf İngilizce Okuma Metni: Mars: The Red Planet

WORKSHEET

Ünite/Tema: Planets · Seviye A2 · 116 kelime · dersimizingilizce.com

Name: _____ Class: _____ Date: _____

A Read the text: True or False?

Read the text. Then write T (true) or F (false). *(Metni okuyun. Cümleler doğruysa T, yanlışsa F yazın.)*

> Mars is the fourth planet from the Sun. People call it the Red Planet because its soil has a lot of iron oxide, or rust, in it. Mars is smaller than the Earth, and it is much colder. A day on Mars is a little longer than a day on Earth, but a year is almost two Earth years. Mars has two small moons, Phobos and Deimos. It also has the biggest volcano in the Solar System. Its name is Olympus Mons, and it is more than twice as high as Mount Everest. Scientists send robots to Mars to study its rocks and look for signs of water. Maybe one day, people will travel there, too.

1. Mars is the fourth planet from the Sun. ( )
2. Mars is bigger than the Earth. ( )
3. Mars has two moons. ( )
4. A year on Mars is shorter than a year on Earth. ( )
5. Scientists send robots to Mars. ( )
