D A day in 2070

Read the text and answer the questions. *(Metni okuyun ve soruları cevaplayın.)*

> Meet Ayla, a fifteen-year-old student in 2070. She wakes up in a smart home that opens the curtains and prepares her breakfast automatically. She doesn't go to school every day; three days a week she has lessons with a virtual teacher at home. On Fridays, her class visits the Moon base through a live hologram. Ayla's dream is to work at the first research station on Mars. Her grandmother often tells her about the old days, when people had to carry phones in their pockets. Ayla can't imagine that!

1. How many days a week does Ayla study at home?

a) Seven. b) Three. c) Two. d) Five.

2. How does her class visit the Moon base?

a) Through a hologram. b) By spacecraft. c) By plane. d) In a book.

3. What is Ayla's dream?

a) To live on the Moon. b) To build smart homes. c) To work on Mars. d) To be a teacher.

4. What surprises Ayla?

a) Virtual teachers. b) Holograms.

c) Smart homes. d) That people carried phones in their pockets.

E Life in 50 years

Write your answer. *(Cevabınızı yazın. Örnek cevap, cevap anahtarındadır.)*

1. What will life be like in 50 years? Write predictions about homes, schools, transport and space.
