   a) would choose b) will choose c) chose d) had chosen

D Music and the brain

Read the text. Are the sentences true or false? *(Metni okuyun. Cümleler doğru mu, yanlış mı?)*

> Scientists have discovered that listening to music activates almost every part of the brain. When we hear a song we love, the brain releases dopamine, a chemical connected to pleasure and motivation. Music can also bring back powerful memories; a song from childhood can make us feel exactly as we did years ago. Learning to play an instrument seems to be especially beneficial for children, as it may improve memory, attention and language skills. However, researchers point out that music with lyrics can be distracting when we are doing tasks such as reading.

1. Music activates only one area of the brain. ( )
2. Dopamine is connected to pleasure. ( )
3. Songs can bring back memories. ( )
4. Playing an instrument may improve children's language skills. ( )
5. Music with lyrics always helps us read better. ( )
